

## **Training Agenda**

*The deployment and use of HydroMast sensors: what, how and where?*

### **SCHEDULE**

#### **SESSION: 1 Hour**

1. What? – what is the Hydromast and how it can be used to measuring water currents?
2. How? – how can you retrieve data from the device, how to can you set it up and what to keep in mind?
3. Where? – where can the Hydromast be used and what are the applications (examples provided)?
